

Microwave Oven S'mores: Simple or *Full-On!*

TIP: Here's how to make s'mores in the microwave oven either simple or full-on with your choice or combination of easy to find ingredients.

Preparation Time: about 1 minute

Cooking Time: 30 seconds

Simple

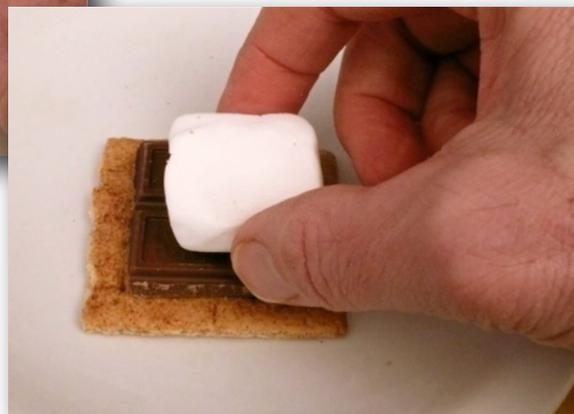

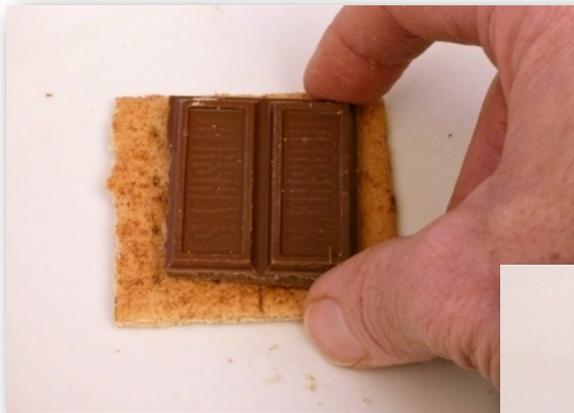

Graham Crackers
Milk Chocolate Bar
Marshmallows
Microwave Oven Safe Plate

Optional Full-On Ingredients

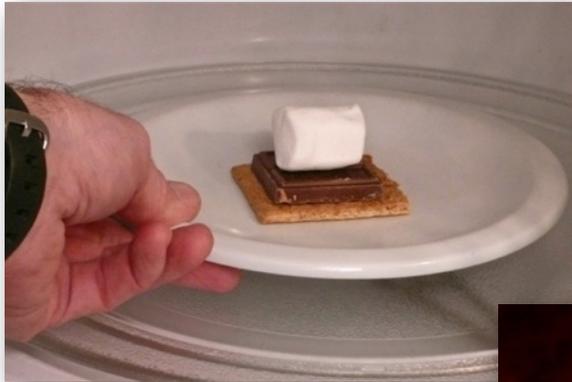

Nut Butter & Table Knife (I'm using peanut butter)
Favorite Yogurt
Favorite Ice Cream
Favorite Berries (I'm using blueberries)
Favorite Dried Fruit (I'm using dried cranberries)
M&M's
Favorite Cereal

1. Put **half a graham cracker** on a *microwave oven safe plate*. Cover the **graham cracker** with a **piece of milk chocolate** that is slightly smaller than the size of the **graham cracker** and top with a **marshmallow**.

2. Put the plate in the middle of the microwave oven and cook for 30 seconds using your microwave oven's HIGH heat or 100% POWER setting. **NOTE:** I used a 1200-watt microwave oven to cook these s'mores. Cooking time will vary depending on your microwave oven wattage. If your microwave oven puts out less watt power, cooking time will take a little longer. If your microwave oven puts out more watt power, cooking time will be shorter.

3. When the timer sounds, carefully remove the plate from the microwave oven, cover the **cooked marshmallow** with the **other half of the graham cracker** either as is or...

...with a good spread of your **favorite nut butter**.

Then add your choice or a combination of **yogurt, ice cream,...**

...your favorite berries - after they've been rinsed in the sink,...

...your favorite dried fruit, M&M's and/or your favorite cereal.
